- ActiveSmart™ technology helps keep food fresher for longer by constantly maintaining the ideal temperature.
 - Spacious bottom freezer with easy-slide internal drawers to separate storage

DIMENSIONS

Height	1720 mm
Width	790 mm
Depth	695 mm

FEATURES & BENEFITS

- Activesmart™ Foodcare**
ActiveSmart™ Foodcare learns how you live. It's technology which understands how you use your refrigerator and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.
- Humidity Control**
Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.
- SIMPLE STORAGE**

- This fridge is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.
- Clever Energy**
Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.
- Easy cleaning**
Spill-safe secure glass shelves easily capture any drips or leaks and prevent them from falling on items below.
- Design quality**
Our refrigerators are designed and built using quality materials. We use pre-painted steel, and solid glass for shelving.
- SPECIFICATIONS**
- | | |
|---|------------------|
| Capacity | |
| Total gross capacity | 519 L |
| Volume | 494 L |
| Volume freezer | 146 L |
| Volume refrigerator | 348 L |
| Consumption | |
| Energy rating | 3 star |
| Energy usage | 467kWh/year |
| In-use energy carbon emissions estimate | 304.2kgCO2e/year |

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
