- Easy self-cleaning with catalytic panel
- Even convection heating on every shelf

DIMENSIONS

Height	595 mm
Width	595 mm
Depth	571 mm

FEATURES & BENEFITS

Steam assisted cooking
Expand your cooking capabilities with our basic steam assist function, Bake+Steam. Pour water into the oven cavity to create humidity in your oven, for the perfect crispy crust or deliciously moist cake – cooking evenly and quickly while preserving flavour and nutrients.

Healthier cooking with Air Fry
The options are endless with our dedicated Air Fry oven function. Re-create your favourite fried foods with less oil, or discover healthier recipes with a satisfying crunch.

Versatile oven functions
Seven specialised cooking functions help you to cook a range of dishes, including Pizza - for a perfectly cooked base.

Intuitive control
Simple dials and a convenient touch display provide easy control over your cooking. Time your cooking effortlessly using the minute timer or program your cooking duration.

Elevated Design
Strong and absolute, our monochromatic black glass oven can recede into dark kitchen environments or create a point of contrast to lighter tones. A linear square handle adds a refined finish to complement modern kitchen designs.

Easy cleaning
Self-cleaning catalytic panel in the oven helps to absorb and break down fat and splatters during cooking. The oven door and inner glass can also be removed for full access to the interior when cleaning.

Considered features
Designed for effortless handling, this oven has a soft-close door, telescopic shelf runners and a triple-glazed glass door that remains safe to touch from the outside.
