

DISHWASHERS

DWIFABB4 SMEG BUILT-IN DISHWASHER, RETRO DESIGN

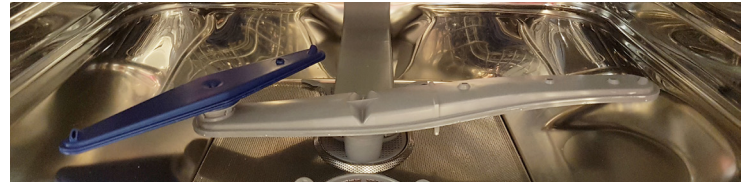

EAN 8017709357443

Size	598mmW x 600mmD x 850mmH
Capacity	14 place settings
Finish	Black
Display	LED indicators
Programs	10 +1 programs
End of cycle indicator	On display, with acoustic signal
Baskets	2 Levels + cutlery basket
Wash system	Orbital wash system
Water softener	Yes
Temperatures	7 - 38°, 45°, 50°, 55°, 65°, 70°, 75°C
Features	Special programs Aquatest turbidity sensor ½ load FlexiZone Upper basket adjustable in three levels on telescopic guides Water softener Self balancing hinges
Water connection	Cold or hot water connection (60°C max)
Timer	Up to 9 hours, with automatic soak
Filtration	Stainless steel 5 stage filtration
Drying	Natural condenser drying, with Dry Assist + automatic door opening system at the end of the cycle
Safety	Total Acquastop anti flood protection system Child safety system (control lock)
Noise	46 dB(A) re 1pW
Energy consumption	230 kWh per year using ECO program
Water consumption	11.3 litres per wash cycle using ECO program
Power	1800 W 220-240V /50 Hz/10 amp
Warranty	Five years parts and labour

ORBITAL WASH SYSTEM

Smeg's orbital wash system has a major spray arm and satellite spray arm which spins ten times for every single revolution of the major spray arm to ensure water is thoroughly distributed in-between every piece in the wash for exceptional results.

HYGIENE 99.9%

High-temperature washing programme. The 75° rinse guarantees the removal of 99.9% of germs and bacteria, making it ideal for sanitising cutting boards and baby's bottles.

DRY ASSIST + AUTO DOOR OPENING

In addition to saving energy, it ensures perfect drying of the dishes by opening the door automatically at the end of the wash cycle

FULL EXPRESS 60'

The Full Express 60' program is designed to wash and dry a full load of crockery and glassware in 1 hour, making it ideal for everyday use.

AQUATEST - TURBIDITY SENSOR

The Auto wash program uses a turbidity sensor to measure the particles suspended in the water throughout the wash cycle. Based on the level of soiling detected, the program adjusts the temperature, duration, and water usage to optimise cleaning efficiency.

DELAY TIMER

Every Smeg dishwasher has a delay start option, which allows you to operate the machine during periods of off-peak or lower energy tariffs. The combination of excellent water and energy savings combined with time of use can ensure much lower running costs.
